
META EXECUTIVE SUMMARY

Philip Mullane, Juan Laso, Michal Kosnik

COMPANY OVERVIEW

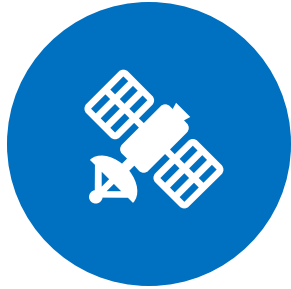

Meta is the market leader in both social media and digital advertising. 
8.1bn monthly active users across a diverse range of platforms (Geuens, 2025).
Facebook possesses 3.1bn monthly active users, a 25% margin over Youtube at 2.5billion.

Seen as an Innovative and successful tech giant. 
Meta has faced scrutiny over user privacy concerns and censorship.
Court cases and legal sanctions have tarnished their image with the general public.

Diverse platforms and personalized content attracts users to consume more. 
Free business suite provides scalable advertising opportunities for companies w/
personalized advertising.

Since 2019, Meta's average annual revenue growth has been over 17% (Statista, 2025). 
2024 saw Meta's most profitable year to date with revenues of \$164.5bn.
Ad sales provided a 98% contribution to FY2024 revenue, consistent since its foundation.

DIFFERENTIAL VALUE: ABILITY TO CONNECT THE WORLD

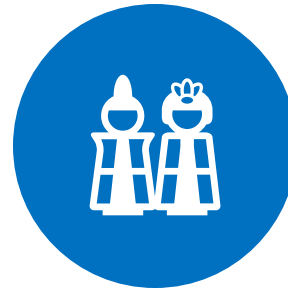

Meta's mission is "to build the future of **human connection** and the **technology** that makes it possible" (Meta, 2025).

Contemporary brand identity is built around **innovation** in AI, immersive VR experiences, and advancements in social media.

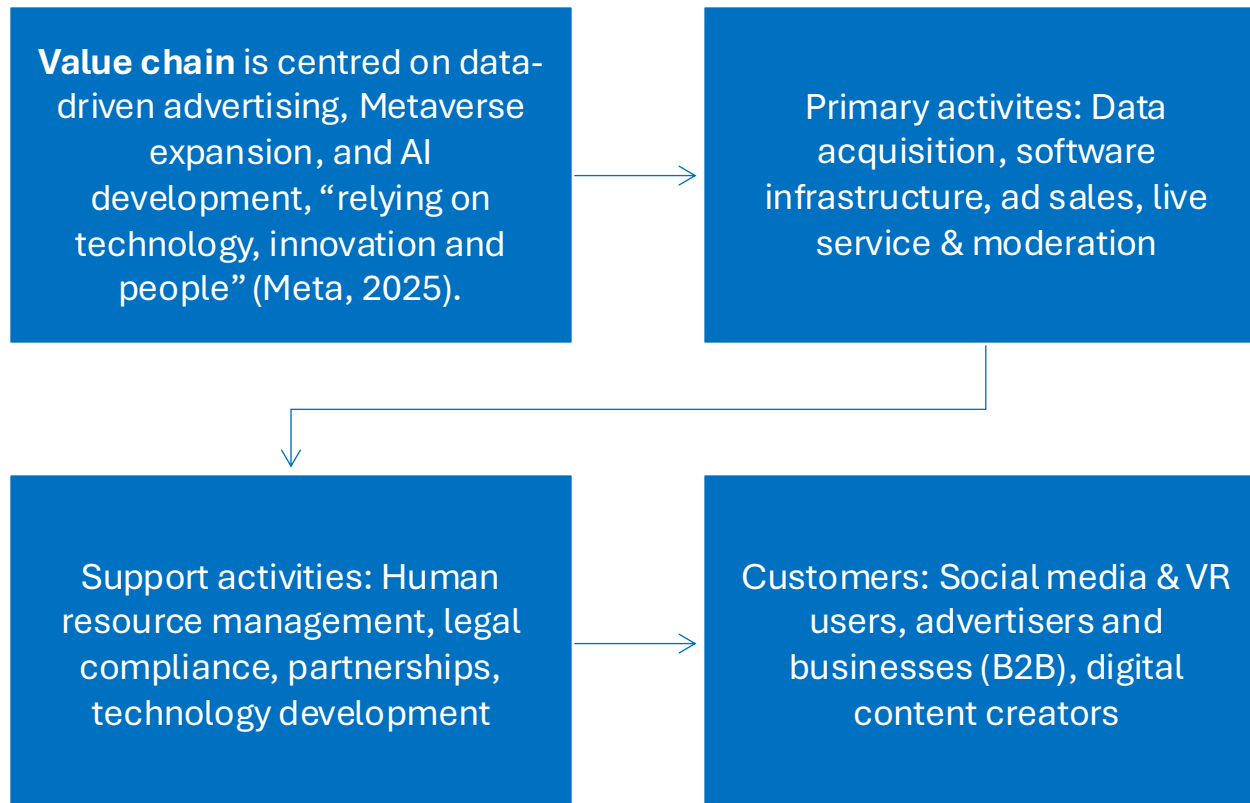

With recent layoffs of 5% (APNews, 2025), Meta possesses a **young workforce** of approx. 70,000 people, over 100,000 less than competitor Google.

Abolition of Meta's DEI policies has negatively impacted brand image and undermined a previously attractive company culture.

MARKET SEGMENT

Three-year high for young adults on Facebook

Over 40 million young adults (ages 18-29) in the United States and Canada are daily active users, and this number is the highest in three years.

Among surveyed apps, **Facebook** is the preferred social media app for communities among United States adults.

1 in 4

young adult daily active users in the United States and Canada use Marketplace.

+20%

Facebook Dating is continuing to see steady and strong daily active user growth and is up +20% year-over-year with young adults in the United States and Canada.

1.8 BILLION

More than 1.8 billion users engage in Facebook Groups every month.

(Meta, 2024)

SWOT ANALYSIS

S

STRENGTHS

- Wide portfolio of services
- Amount of users and data
- Infrastructure & technology
- Market share.

W

WEAKNESSES

- Brand perception
- Privacy concerns
- Dependency on Ad revenue
- Economic instability of media

O

OPPORTUNITIES

- Territory expansion
- Acquisitions
- AI development
- Metaverse leader

T

THREATS

- Competitive market
- Changing social media habits
- Laws and regulations
- Lack of user moderation

PORTER'S FIVE FORCES ANALYSIS

- Competitive rivalry (high): Market saturation and continuous innovation of Meta.
 - Threat of substitutes (high): Competing social media platforms like TikTok, Snapchat or YouTube is a huge challenge for the company. Also we should consider new emerging technologies.
 - Threat of new entrants (low): High capital requirements. Network effects. Brand recognition and trust, which makes it difficult for new entrants.
 - Power of suppliers (low): Domination on the market. Technology providers and dealer with external companies.
 - Power of buyers (low): The platform is free to use, so the users have limited power on it. Advertisers hold value over their actions in the platforms of Meta
-

STRATEGY RECOMMENDATION: NEXT 5 YEARS

1. Diversify revenue streams beyond advertising
2. Strengthen privacy and security measures to avoid legal problems and users complaints.
3. Adaptability to the consumer ´s behaviour and demands over time
4. Maintain growth in international markets
5. Engage proactively with international institutions
6. Reduce the expansion of misleading and harmful content
7. Allow the user to have more power over their own content
8. Invest in AI and machine learning technologies
9. Explore new social models and opportunities
10. Focus on the younger audiences and offer content or apps that they would like to use

FINANCIAL OVERVIEW

- Assess economic and financial performance of the company over the last three years (capital, fixed assets, profit/loss, external resources)
 - Assess the economic and financial performance of the company over the last three years: analyse the economic concepts (capital, fixed assets, profit and loss account, external resources) and the most significant ratios (profitability, productivity, indebtedness).

-

COMPETITOR ANALYSIS

- Compare the company with its competitors (turnover/sales, customers)
 - Meta competes with major tech firms:
 - **Alphabet (Google):** Dominates search advertising and competes with YouTube against Meta's Reels.
 - **TikTok:** A major threat in short-form video engagement.
 - **Snapchat & Twitter (X):** Compete in social media engagement but have smaller ad revenue footprints.
 - **Apple & Microsoft:** Apple's privacy policies (App Tracking Transparency) impact Meta's ad effectiveness, while Microsoft competes in AI and enterprise solutions.
-
