Expertise: Financials, strategic partnerships, marketing campaigns, impact and risk management

Henrique Craveiro

Role: Product Development & Operations

Expertise: Course content creation, expert coordination, MVP implementation and evaluation

THE GROWING MENTAL HEALTH CRISIS ON CAMPUSES

Context of Problem:

Rising mental health issues among university students: stress, anxiety, depression.

Students struggling academically and socially due to poor mental health.

COVID-19 pandemic significantly intensified student mental health problems.

Why Current Solutions Fall Short:

University counseling services often overwhelmed or understaffed.

Persistent stigma prevents students from seeking help.

Reactive rather than preventive solutions; lacking educational approach.

INTRODUCING MINDCAMPUS — A PROACTIVE APPROACH

- **What is MindCampus?**
 - A psychology-focused educational initiative connecting students, universities, and mental health experts.
 - Provides structured, proactive mental health education, moving beyond traditional reactive approaches (e.g., counseling services).
- **Core Elements of the Solution:**
 - **Interactive Workshops:** Stress management, digital detox.
 - **Peer Support Programs:** Empower students to recognize signs and support peers.
 - **Parent & Teacher Workshops:** Educate them on supporting student mental well-being.
 - **Mindfulness & Emotional Skills:** Practical sessions like meditation and journaling.
- **Why Our Solution is Effective:**
 - Low-cost & scalable—leverages existing university resources and infrastructure.
 - Low-risk—validated through pilot at Nova SBE with proven student and expert engagement.
 - Actively reduces stigma through community involvement and open dialogue.

THE BUSINESS MODEL

Revenue Streams:

- **University Partnerships:** Universities fund or co-fund programs as part of their student well-being initiatives.
- **Participation Fees:** Small, affordable fees from students for premium workshops or certificates.
- **Curriculum Licensing:** Monetize content by licensing to other universities and schools.
- **Sponsorships & Grants:** Collaborate with governments, NGOs, corporate CSR initiatives, and alumni networks for funding.

Cost Structure:

- **Content Creation & Delivery:** Payments to psychologists, experts, and content creators (contract-based or fixed).
- **Marketing & Promotion:** Flyers, posters, social media ads, and influencer collaborations.
- **Venue Costs:** Generally minimal, using university facilities.

Key Partners:

- Universities (hosts and primary customers)
- Mental health experts, psychologists, life coaches, and influencers

- **What We Tested:**
 - **Feasibility:** Can we effectively implement this course within a university setting?
 - **Interest:** Do students and universities actually want and value this initiative?
 - **Content & Engagement:** How effective is our expert-developed syllabus?
- **Implementation Steps:**
 - **University Partnership:** Secured pilot collaboration with Nova SBE.
 - **Student Insights:** Conducted initial market research to understand student mental health concerns.
 - **Content Creation:** Developed tailored syllabus with input from psychologists and mental health experts.
 - **Course Promotion:** Actively marketed the pilot course to Nova SBE students.
 - **Pilot Execution:** Delivered sessions, gathered immediate feedback.
- **Results & Validation:**
 - Strong student enrollment and positive engagement.
 - High interest from both students and faculty, validating market fit.
 - Valuable feedback from students and professors for refining the program.

**MVP:
SUCCESSFULLY
PILOTED AT
NOVA SBE**

MARKET RESEARCH FINDINGS

- **Market Need:**
 - Rising mental health concerns among university students (anxiety, depression, stress).
 - Universities actively seeking innovative solutions for student well-being.
- **Competitive Landscape:**
 - Existing services mainly reactive (counseling, crisis intervention).
 - Limited comprehensive, educationally focused solutions.
- **Opportunities for MindCampus:**
 - Strong demand indicated through student surveys.
 - Increasing public and governmental support for mental health initiatives.
 - Growth potential through digital platforms (12% projected annual growth).

FINANCIAL PLAN & FORECAST

WHAT'S NEXT FOR MINDCAMPUS?

Expand to More Spanish Universities

- Adapt and license our curriculum to fit diverse academic settings.
- Create custom pilot programs to quickly demonstrate value to other universities.

Implement Courses in Hospitals

- Mental wellness courses targeted at patient recovery programs.
- Collaborate with healthcare providers to design tailored content.
 - Clinical feedback and patient outcomes.

International University Expansion

- Portugal, UK, Germany.
- Translate and localise curriculum.
- Establish partnerships with foreign educational organizations and NGOs to streamline entry.

Launch Direct-to-Consumer Subscriptions

- Affordable subscription plans for graduates. Premium content and workshops accessible online.
- Engage alumni and create community support.

Apply for Larger Grants

- Substantial grants from EU health and education initiatives.
- Invest into internationally recognized experts.
- Increase brand visibility with more popular influencers and public figures.

KEY METRICS AND RISKS

Key Success Metrics:

- **Student Engagement:** Enrollment numbers, attendance rates, satisfaction surveys.
- **University Adoption:** Number of institutions hosting the course.
- **Expert Involvement:** Retention and diversity of mental health professionals involved.
- **Feedback Scores:** Qualitative and quantitative feedback from students and faculty.
- **Digital Expansion Readiness:** Website traffic, pre-registration for future online programs.

Risks & Mitigations:

- **Low Student Attendance:**
→ Mitigated by influencer-led campaigns, pre-launch events, and optional incentives (e.g., certificates).
- **University Bureaucracy/Delays:**
→ Start with early adopters and build proof to influence others.
- **Expert Availability:**
→ Build a wide, flexible network with backup speakers and recorded content.
- **Funding Gaps:**
→ Diversified funding sources (grants, sponsorships, licensing).

JOIN THE
MOVEMENT!

“We believe mental health can be taught just like math or history—and we’re building the curriculum to prove it.”
