

INSTRUCTIONS FOR THE GROUP PROJECT

History of cinema

BASIC INFORMATION

Deadline for submission: Tuesday 1st April 2025

Groups: 2 or 3 students

Grading: Total of 1.5 points (see "Assessment Rubric" underneath)

Submission: One member of the group will upload the Assignment Report via ADI. The Report should contain a **link to the Short Film** which will be uploaded and available online to watch by the lecturer (you can upload it to YouTube, Google Drive... just make sure that someone with the link is able to watch it. Videos not available to be watched will automatically fail the assignment).

SUMMARY

Students will make a **short film** of no more than 3 minutes in length (longer submissions will automatically get a 0 on the project). The short film must be a cinematographic homage and reflect the style of a cinematographic current, film genre, director, etc., studied during the course. The film should try to **mimic the cinematographic and narrative style of the chosen era** so it's main characteristic should be recognizable. The core theme of the short film is free.

The work will not be complete without a short **Assignment Report** detailing the following three aspects:

- What narrative and aesthetic characteristics linked to a **particular film style, genre, director, etc.**, have been sought to be reflected in the audiovisual project. You are expected to describe aspects such as structure, lighting, photography, direction, camera, staging... 30 lines.
- What **film or films have you based your audiovisual project on?** You should establish a link between your choices and the films or aspects of a film of the style you are trying to copy which have inspired you (you should have watched those films). 20 lines.

ASSESSMENT RUBRIC:

Different elements will be evaluated as a whole. The final mark will be the same for each member of the team.

- Quality and execution of the Short Film and formal presentation of the report: Layout of the text, attention to detail in design and presentation... Technical proficiency will not be taken into account, but you are expected to work on your film's quality. Spelling and grammatical mistakes in the text will be penalised. (0.5 point)
- Original and clear connection of your film to a specific film style, era, or filmmaker's work... Your film should follow the lines of your chosen period/style... and your Report should explain it clearly, giving specific examples justifying your creative choices. The report should reference more than one film which has inspired your creation. Those films should be relevant to your chosen style/era and should have informed in some way your short film. (1 point)
