SUMMARY

Business Analytics graduate, combining 5+ years of entrepreneurial experience with technical skills to build creative business solutions- from analysing and communicating the hidden stories and insights behind complex data, to designing workflow automations that eliminate bottlenecks.

EXPERIENCE

Freelance Project

JUN 2026

Social media market research for a medical client.

- Researching a range of specified niches within client's market across various social media platforms
- Collecting, annotating and analysing ~500 posts from global competitors and peers and identifying trends, sentiments, engagement drivers and content gaps
- Deliverables: **20+** Excel spreadsheets of raw structured data, ~50-page report of analysis and findings

NexaReg

JAN 2025 – PRESENT

Helping build NexaReg- an AI start-up in the medical regulations industry (part-time).

- Prospecting leads and contacts using LinkedIn, Moody's 'FAME' and other tools and resources
- Researching relevant industry documentation, including ISO, FDA, MHRA, RAPS, MDR/IVDR
- Managing IT systems, digital assets, media and documentation across local and shared cloud environments such as **HubSpot**, **Google Drive**, **GitHub** and **Cloudflare**
- Building and integrating **AI agents** and systems to augment and automate workflows using various technical and AI tools including **Claude**, **Google Antigravity CLI/IDE**, **OpenClaw**, **Python**
- Creative vision and design language- designing graphical assets including logos, documents and other digital media using **Adobe Suite** and other creative tools

'Stealth Startup'

JAN 2025 – PRESENT

Intern at a 'Stealth Startup' in the PropTech industry (part-time).

- Automating lead-generation and prospecting pipeline using custom-made **Python** programs and **AI**
- Compiling, organising and maintaining CRM data of ~**1000 leads** in internal company database, and synchronising with **Hubspot**
- Market research and reporting, augmented by frontier agentic AI deep research tools

SourcedByMK

Est. ~JAN 2020

Founder and CEO of SourcedByMK- a sneaker and streetwear reselling and personal shopping business.

- Successfully scaled operations from inception to planned business exit and asset liquidation; **6-figure profits** and **500+ total sales** over lifetime
- End-to-end procurement from various sources (retailers, reseller networks, international wholesalers, online platforms), and ensuring quality and authenticity of sourced inventory
- Omnichannel sales and logistics, managing end-to-end customer experience
- Accounting and inventory management, tracking and forecasting margins and sales volumes across product lines to inform buying decisions and pricing strategy
- Social media marketing- designing brand identity and graphics, managing customer relationships
